Policy Questions for Council Consideration:

Should a contract be awarded to FCS Group for the review and update of the City's streets and water system development charges (SDCs)?

Summary:

The adoption of the Water System Master Plan and the Transportation System Plan included new capital improvement project (CIP) lists.

The CIP is funded from both SDC and utility enterprise accounts.

As the CIP changes, it is logical and necessary to update the associated SDCs.

FCS Group was the only respondent to the RFP for SDC review and update services.

The City has worked with FCS Group in the past and finds their proposal to be reasonable in scope and price.
